Up to 4X faster than a standard charger, it can charge devices compatible to 80% in 35 minutes. [Crystal Clear Music Streaming] : You can stream music on your car's stereo via Bluetooth / USB Flash Drive (≤32GB) / MicroSD card (≤32GB). Advanced noise reduction technology will ensure quality, crystal clear noise. Note: WMA MP3 WAV APE FLAC music format in a USB flash drive or microSD card is supported. [Enjoy Hands-Free Calls] : Nulaxy Technology provides stable connections and echo cancellation can reduce background noise for better hands-free calls, so you can answer phone calls by pressing a button. [7 Color LED Backlit Version] : Supports 7 colors carrying backlit light, including Red/Green/Blue/Yellowish/Purple/Cyan, this Bluetooth fm transmitter will give you a stunning display of visual color, which is a good way to match the colours already in the car. [Security Function] : Security in advance. The NX10 comes with a voltage to show you the battery condition of your car. The voltage should be between 13.2V to 14.7V when your car is inside and moving, 12.2V to 12.8V when your car is parked and traction is #Disconnection kan. Step 2: Turn off Bluetooth on your phone, then turn it on again; Step 3: Unplug the FM transmitter and reinsert it. Step 4: When the display is cured (please start the car engine so that the transmitter will be powered), look for the FM transmitter on your Bluetooth setting and tap on your phone to start pairing again. FM transmitting device names are usually model numbers. It may fail to connect if your phone's Bluetooth name is too long. At this point, you may need to shorten the name Of Bluetooth to let it be paired. Note: Please note that FM transmitters can only connect to one device at the same time. #Static: Step 1: Please check whether the car radio and transmitter are at the SAME station. Otherwise, please set both of them at the same station. Step 2: If there is a static when you listen to music, the key is really to find the frequency of completely static isolated void (awful sounds but keep going) stations before you match the transmitter to a full static radio station. For example, one works well at low frequencies (Colorado) 88.9 or more. High frequencies (102.5+) do not work as well. Step 3: Turn on the volume of your fm and phone transmitters, then refuse Radio the car below to the level to achieve better sound quality.
